LATEST Update from the C56-Team, dated 2011-02-06: C56EME will be QRV soon from The Gambia (Locator: IK13ql)  Rig is 2 x 8 Xpol yagi, TS-2000, WA2ODO preamp and enough EME power. Frequency: TX/RX 144.124 MHz. C56EME always first. We'll also take a small 70cm setup (23 elem. yagi) with us hoping to get some big guns in our log. We leave February 9th and build up the station before the weekend. We try to put our first signals Friday February 11th to the moon. KYFC.  We want to be active at least during two whole weekends. The first weekend the conditions will be poor to moderate, so all big guns can be worked easily, starting Febr. 15th the condx will become excellent! and at that time we have plenty of time to concentrate us on the weaker ones. And you know: we'll never give up untill a QSO has been made! Last operation presumably February 21st There's a good possibility for internet/loggers... If so, we will connect to Nï¿½UK so now and than. We also want to make small impressions on YouTube on a regular basis if possible. See our website http://www.emelogger.com/gambia with the latest updates/log/news and further info about the team members.
73 from team C56EME. CU soon via the moon! PE1L Rene, PA3CEE Eltje, PE9DX Johan - SOURCE: tnx to Rene, PE1L, direct to MMMonVHF

Frank DH7FB & Bernd DF2ZC qrv from GD in april 2011
Hello All, as announced already in 2010  Frank DH7FB and Bernd DF2ZC are activating the Isle of Man (DXCC GD) this year.
We will be QRV from IO74RH, the Close Taggart cottages http://www.closetaggart.co.uk/   The schedule is: 8/9 April transfer from Berlin respectively JO30RN via Dunkerque " Dover " Oxford (where we ll stay the night) " Heysham " Douglas/Isle of Man to the DXpedition location where we should arrive around 1800Z on the 9th. The following morning we ll set up the equipment and should be ready by moonrise on the 10th which is at 0930Z. Our final activity will be moonset on the 13th (0300Z) unless we deem it necessary to be QRV also from moonrise on the 13th (1330Z) for another two hours or so before we break down the station.

** E3, ERITREA Expedition in 2012 **

It looks like a E30 DXpedition is planned for 2012. The last
operation, E30GA, took place from Asmara in November 1998.
Currently the information is limited -- no operators and specific
dates were provided. The only thing available via the below Web
page is activity will be on 160-6 meters, including 30/17/12 meter
bands, with operations on CW, SSB and RTTY. The unknown team will
have at least 4 stations on the air at the same time on different
bands and modes. The callsign is also not clear on the Web page (is
it E30A or E30AA). However, the below Web page states, that the
QSL Manager for E30A is S52RU. The Web for the 2012 DXpedition
(still under construction) is: www.seecc.net/Eritrea2012/index.html
There is a survey for "bands needs" available on the Web page.
Hopefully, more info will be forthcoming. Stay tuned!

** 4A4A DXpedition - Revillagigedo (XF4) **

Dear friends: The Revillagigedo (XF4) March 2011 DXpediton has been
finally officially announced. The assigned callsign is "4A4A". See
the web site: http://www.revillagigedo2011.com/  The team leader,
and expedition organizer, is Marcos, XE1B and the QSL manager is
David: EB7DX (see: http://www.eb7dx.com). Confirmation will only be
DIRECT and LOTW. A team of 9 operators (see the official web site
for operators details) will operate from "Isla Socorro" from the
4th to the 19th of March 2011. Isla Socorro, iota NA-030, (off.
"Benito Juarez" island) is located -aprox- at longitude 111ï¿½ West
and latitude 18ï¿½ 46ï¿½ North. WAZ zone 6. ITU zone 10. Loc is DK48MS
Because propagation conditions are still low or average we must
make an special effort to optimize the DX windows. I have prepared
some "propagation movies" (one per band) for Revillagigedo to help
those with less experience estimate the best times/bands to work
4A4A. You can see the movies in my YouTube "channel":

** DEADLINE for your NEWS input to MMMonVHF**

... for your News (pse use: http://www.mmmonvhf.de/newsuser.php)
to the next MMMonVHF Newsletter will be next thursday 2359 UTC ...

**********************************************************************
      The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
**********************************************************************

Our Newsletter is compiled from the input of the USER of the
VHF-DX-Portal MMMonVHF and as well by a lot of free usable
HF-V-U-SHF-Info-Sources (named as SOURCE at the NEWS) and chats
like ON4KST-, RU-VHF-DX-Net, EA-V-U-SHF-Chat, N0UK-Chat and others.

** Many thanks to all our USER who did send us info and news **

Wherever we found the info we always indicate the source of the
info. If you get knowledge of an expedition, which is NOT listed
at our VHF-DX-Portal MMMonVHF or if you have additional info for
an expedition, PLEASE be so kind and send us this info at:

** www.mmmonvhf.de/newsuser.php  or  www.mmmonvhf.de/kontact.php **

The MMMonVHF-Team is always trying to spread any expedition info
as much up-to-date and reliable as possible and as long as the
info does not violate with our MMMonVHF-Policy ...

Have a lot of fun and enjoy the VHF-DX-Portal MMMonVHF!
